

CANON

UVM Springfield x Pastorale
2005;14.3 h/1200 lbs

Circumstances prevented him from beginning his breeding career in earnest until recently, but Canon is already a producer of quality Morgan sport horses having produced a competitive eventer and one of his first foals placed in the top ten in USDF Yearling Prospects in Hand at the prestigious Dressage at Devon—the only Morgan in a class of 19 horses.

Square and strong, but still typey and chiseled, Canon has correct conformation and an expressive, ground-covering trot. He is by UVM Springfield who is a proven producer of athletes in many sport divisions including reining, dressage, western dressage, eventing and endurance.

Producing personable, trainable foals that are ideal candidates for the teaching program at Miner — qualities that make them sought after as sport horses as well.
